## Asia-Pacific Greens Federation

---

A look back on the progress and challenges  
our member parties have faced over the past year.

---

### ANNUAL REPORT 2021

## Welcome to APGF's 2021 Annual Report!

**W**e relish the opportunity to showcase the continued growth of our organisation, our member parties, and of the Green movement across the Asia-Pacific.

It is fair to say that, like the year before it, 2021 was challenging. The ongoing ravages of the COVID-19 pandemic, and the systemic failures of many governments to respond strongly and equitably to its challenges, have highlighted the importance of the Green movement pushing for solutions based on science, justice, human rights, and ecological wisdom. It has also shown the resilience of Green parties and activists across our region, whose strength and influence has continued to grow in the face of threats including the pandemic, climate change, and political oppression.

Despite these challenges, APGF, our member parties, and the Green movement have never been stronger. Across the Asia-Pacific we see thousands of people, many becoming activists for the first time, stepping up to demand a better future. Green parties are a beacon and political extension of this every-increasing movement calling for change. The out-dated politics of colonialism, division, neo-liberal economics and environmental destruction may not be dead, but they face a growing chorus of Green voices demanding and offering a better and more inclusive tomorrow.

APGF is here to connect, support and amplify those voices. We don't have the money of big fossil fuel companies, military manufacturers, or multi-national corporations. We have something more powerful: You, and the tens of thousands like you who know that this planet and its people deserve respect and justice. Our 20 member parties organise under the principles of the Global Greens Charter to build a world based on ecological wisdom, non-violence, participatory democracy, respect for diversity, social justice, and sustainability. And we help them do it.

I am proud to be a part of helping build that future, and working with such incredible people to achieve it.

Change may not be easy, but it is necessary, and it is right. The outcome of the COP26 climate negotiations in Glasgow showed that the politics of yesterday is not fit for the challenges of today, or tomorrow. Despite some small successes, the Conference was beset by

tired and stale tactics, nationalism, and state-centric thinking that are inadequate to address the challenges we face. The result? Too little, too late - and we are running out of time.

That's why APGF is inspired by the emerging women and young people who are standing up to demand a better future, and why our Women's Network and Young Greens Network give us such hope. The disproportionately older white men who packed the halls of COP26 seem to lack the imagination, courage and conviction to address the existential threat facing us all. The Global South, women, and young people are the best hope we have of avoiding catastrophe, and APGF is proud to support them in this critical task.

Each new year offers the opportunity to look back at what we have achieved and where to go from here. APGF and the Green movement have certainly had many successes over the past 12 months, but we are not resting on our successes. With a new 3-year Strategic Plan already, we are taking stock internally and of the challenges ahead, and charting a course for the future.

With your support, we will succeed.

**Nick Cooper**

APGF General Secretary

# Our supporters

Our work is only possible because of the generous support provided by people and organisations across our region.

We would like to acknowledge and thank the contributions provided by elected Green representatives in our member parties, who contribute part of their salary to APGF and the Global Greens. We would like to extend this thanks to our member parties, who contribute a portion of all donations they receive to APGF.

Many of our projects would not be possible without the continued and generous support provided by the Australian Greens International Development Committee (IDC). We greatly appreciate the financial and capacity assistance IDC provides to APGF and its member parties through a grant provided by the Australian Government, and look forward to our continued collaboration.

We would also like to share our appreciation to Google. APGF uses Google Workspace for its communication, collaboration and document management services. Google has provided this service free of charge to APGF, and we are grateful for Google's support to APGF and other non-profit organisations.

And, our sincere thanks to our individual donors! Your generosity and kindness in 2021 is a true gift that inspires us to fight for a better future. Thank you so much to:

# Introduction

Coronavirus marked the beginning of this decade and is still testing each individual, organisation, and country to their limits. In APGF, we have pushed through many of the challenges brought by the pandemic and continued the important work of building the Green movement and our organisation across the Asia-Pacific. We are grateful to all of the Greens across the region for their tremendous work during 2021, in their countries and regionally, to re-center politics on people and the planet. Through very trying times, Greens have consistently stood up for a future of justice and sustainability, and their impact is being felt.

We don't do this because it is easy, but because it is right.

The global pandemic has not only tested us, but also taught us how strong we can be when we are united. These past few years did not only bring the pandemic, but also natural disasters caused by alarming climate change, inhuman acts on borders and within countries, and illuminated how governments have and are still failing at securing a comfortable life for their citizens. But, it has also shown us that even through all of this, the young generations are equipping themselves with knowledge and activism, bringing awareness at different levels and discussion tables so that the people are ready to fight the greed that is ruining our planet.

The strength of the APGF is the growth of Green parties around the region, their activities and their success. APGF is fully focused on how to support our members with our available resources, while seeking to expand those resources in the future. APGF's Women's Network and Young Greens Network are supporting Greens to flourish, with the active involvement of representatives of our member parties. We are so proud of our Women's and Young Greens Networks and the significant contributions they are making in APGF, our parties, and our societies. Whether through campaigns, trainings, webinars, mentorship, or the countless other achievements they have made over the past year, our Networks have shown that women and young people are not only our future, but our present.

Our Committees and volunteers have seen outstanding achievements as well, as detailed further in this report. Our Policy Committee completed the development of 20 template policies our parties may adapt and adopt, and translated 7 of

these policies into 8 APGF languages. Many parties have already adopted some or all of these policies, providing a solid foundation for future campaigns and elections. Our Fundraising Committee has continued to strengthen and diversify APGF's income sources, building our sustainability and capacity into the future. Our Management and Administration Committee has continued to steadily guide APGF's operations and Secretariat, under the able governance of the APGF Council. And, as we look to the future, we are close to finalising APGF's Strategic Plan for 2022-24, which will steer our continued growth and impact over the coming years.

In 2022 we look to build on our successes and continue growing the capacity and impact of our member parties and APGF. We are more than a collection of political parties - APGF and the Global Greens are the manifestations of a global movement that is needed now more than ever. From the grassroots to the global, we support, empower, and amplify the voices of the present and future to build the world that we and our planet deserve. Your support, and the support of thousands of people like you, are what make this possible.

APGF acknowledges and appreciates the financial support provided each year by our elected Members of Parliament, our member parties, our individual donors, and the Australian Greens International Development Committee. Your support underpins our ability to make a huge difference across our region. We hope you know how much your support means to us, and look forward to our continued collaboration as we strive to build a Green future.

Finally, we would like to thank all of the APGF member parties, our Networks, Secretariat, Councillors, and other volunteers for your incredible work, your dedication towards the political movement, and your commitment and activism on the values we share as Greens across the region. We have achieved so much together, and we look forward to even greater success in 2022.

Thank you!

**Tika Bhandari and Ayah Abdouny**  
co-Convenors, Asia-Pacific Greens Federation

## APGF Women's Network (APGFWN)

APGFWN recognizes there are barriers to establishing gender equity in green party politics. The Network endeavours to create a political culture that is inclusive and ready to view green issues from gender-sensitive perspectives by supporting and empowering green women in the Asia-Pacific region.

### About APGF Women's Network

APGFWN was formed in November 2015 with 18 members from the Asia-Pacific region. The Network recognizes that ensuring equal opportunities and adequate foundation for women and gender minorities to participate in green politics is of paramount importance for establishing gender equity in Green Parties in the Asia-Pacific. Women's work, position, contribution, and situation should be recognized in all activities of Green Party politics. APGFWN has been, and will continue to, support women by providing programs and materials that assist, empower, and inspire them to stand against patriarchy and voice their agendas in solidarity with other minority groups in our region.

### APGFWN Members

Australia, Bangladesh, India, Indonesia, Atjeh Indonesia, Iraq, Japan, Jordan, Korea, Lebanon, Mongolia, Nepal, New Zealand, Pakistan, Philippines, PNG, and the Solomon Islands are the members of APGFWN. Green women and women's groups of new APGF members and emerging green parties are invited to contact and join the Network.

## APGFWN Executives

Co-convenors	:	Soohee Lee & Alpyu Singh
Co-secretaries	:	Minami Teramae & Rachana Shresthra
Treasurer	:	Suin Yoon
APGFWN rep to GGWN	:	Anita Nautiyal

## What We Do

APGFWN hosts monthly online meetings and conducts different events and trainings to promote women's issues and discuss the ways forward for green women in our region. The primary objective of the monthly meeting is to gather information on the agendas and events our members are engaged in at the moment, and search for and work together on possible collaboration and means to support between the Network and the members.

## Addressing Gender Equity within APGF

In collaboration with the APGFWN - Australian Greens International Development Committee (IDC) project team, APGFWN conducted the first three year review of the APGF Gender Equity Roadmap from 2018 to 2021. We collected and analysed the data on gender equity submitted by APGF member parties in annual reports and collated new data through questionnaires to member parties. The analysis found that most of the parties now recognize the importance of gender equality though much work still needs to be done. Key issues were to address internal procedure issues such as candidate selection, and gender quotas; the necessity of having more women on the executive; and standing women candidates and supporting them in their election campaigns. It is noted that gender equity training and the mentoring program as well as online resources are now readily available for APGF parties to adapt and utilise. APGFWN will work closely with APGF and Member parties to further Gender Equity measures including the principle of Gender Equity in their party constitution and implementation of policies.

## Strengthening the Network

APGFWN has worked closely with the APGFWN-IDC Project Team to assist our members in advancing women's role in their respective green parties. A way to do that is to help local and national green parties to establish a women's wing and provide them the means to initiate their own projects and work.

## APGFWN Internship

### The Next Mentor Internship

This is a special program for the mentoring program graduates who want to organise a national mentoring program for their party or to become the next APGFWN mentor. The internship is a 12-month program that offers a scholarship and apprenticeship to a green woman who aspires to build and strengthen their local and national women's wing and their work.

### The Project Management Training

APGFWN conducted a Project Management Training which was funded by the APGF Council and the Australian Greens International Development Committee (IDC). For more detail, please refer to the “Project Management Training” section in the “APGFWN - Australian Greens IDC Projects” of the Annual Report.

# APGF WN - Australian Greens IDC Projects

The Asia-Pacific Greens Federation Women's Network (APGF WN) has implemented a Gender Equity Online Toolkit; Mentorship & Webinar program, and Gender Equity trainings and training of trainers.

## What we do

### Empower:

We're empowering women from diverse backgrounds and walks of life to lift their voices for a future in which all people and the planet can thrive. Designed by and for Green women politicians, our transformative leadership development program supports the leadership of women within their own parties.

### Support:

Together, we're opening doors for women who are leading Green politics. Opening doors to new ideas, approaches, support, and opportunities by providing gender equity implementation workshops, training the trainers, mentoring programs and online tools.

### Funds:

The Gender Equity Projects run by the Asia-Pacific Greens Federation Women's Network have been funded by the Australian Greens International Development Committee (IDC) since 2017 to today with the support from team members.

## Gender Equity Toolkit

Gender Equity Toolkit is a practical tool aimed to help APGF WN and APGF (Asia Pacific Greens Federation) member parties to have a better understanding of gender equity and use it as a guiding principle to increase women's political representation, participation, and leadership in green parties. It is a comprehensive set of structural guidelines, template policies, tools, and case studies for green parties. Green parties can use the kit to identify what structures, policies and actions are required for them to empower women and provide them the same rights, benefits, obligations, and opportunities as equals in green politics.

As agreed by APGF members in December 2018

and renewed in October 2021, the Gender Equity Roadmap outlines APGF commitments and goals to improve Gender Equity. The roadmap includes an APGF framework to help create Gender Equity plans for members as well as a Gender Equity 3-year action plan that provides steps and sets out goals for improving women's participation, leadership and policy development.

APGF WN and APGF case studies are included in this toolkit to share the experiences, inspirations, and lessons learnt from Greens parties in the region. A list of useful resources related to gender audits and gender action plans, gender equity, training and women's rights and issues is included to assist APGF members achieve their Gender Equity goals. The outline of this resource, updated in 2021, is available on the new APGF website [www.asiapacificgreens.org](http://www.asiapacificgreens.org)

## Three year Gender Equity Roadmap Review

APGF WN on behalf of the APGF Council, conducted a 3-year review from the pool of data collected from member parties. The findings indicate that the Asia-Pacific green parties show a gap in their implementation of gender equity. The details of the findings have been reported to the APGF AGM in October 2021 APGF councillors will share this with their respective green parties. APGF WN will host a webinar on this on April 7th.

## Gender Equity Training

The purpose of the Gender Equity training is to empower the current and next generation of women leaders to effectively advocate for their rights, as well as create, and deploy, political strategies to improve women's representation and leadership in policy and in practice. Key is to develop roadmaps for the women's network inside the national party. A manual and presentations are available as part of a training kit for these trainings. APGF WN in 2021 assisted in support for national Green party training initiatives in India and Nepal.

## Training the Trainers - TTT

To encourage Gender Equity in the parties the first training of Gender Equity Trainers was held on 20 - 21 March 2021 with 17 representatives from the Green Parties in; Bangladesh, India, Nepal, Pakistan, as well as

delegates from Mongolia and South Korea. This is the first training of its kind by APGF to train Gender Equity trainers in Asia so Women in these parties can conduct their own training in their own languages and context.

## National Gender Equity Training

### 1) Nepali Greens

On March 9-10, 2021, NGWN held their first two-day Gender Equity (GE) Training for women members in Kathmandu, Nepal, with the support of the Asia-Pacific Green Federation Women's Network (APGFWN) and the Australian Greens International Development Committee (IDC). The GE training was initiated to revitalise the national women's network. The main focus of the training focus was to implement Gender Equity within the party, and lead to the party's goal to achieve 60% female representation on both the Core Committee and membership levels. Due to Covid protocols, trainers assisted from other parties by zoom.

### 2) India Greens

In 2019 APGFWN assisted with the first Gender Equity Implementation training workshop with a pilot project in India, followed by a national Online Gender Equity Training in November 2020. The work and network is now further being built up establishing state women's

networks through an online Gender equity training for the Mumbai and Maharashtra branch and a face to face training in the state of Chhattisgarh, working alongside tribal women, both in 2021.

### 3) Other countries

The project supports the build up of the national women's network in Bangladesh through assisting the women with advice and techniques to do so. In Pakistan we have supported the women to build up to a Gender Equity training in 2022.

### Mentorship & Webinar Program

The mentorship program was initiated in December 2017 with a pilot of four pairs. It is in its fourth year. In 2021 the program has increased to two intakes annually. Green women leaders from around the world pass as mentors on their knowledge, experience and perspectives of Green Politics and strengthen the skills of the mentees on issues such as Green politics, campaigns, policies, and leadership. As a result, the mentees have deepened their knowledge of Green politics and furthered their participation in their Green party and the APGF Women's Network. Pairs meet monthly for online calls assisted overall by the APGFWN mentoring coordinator & team. To date, 24 women have been mentored with a further 5 pairs to start in the March 2022 intake. Sometimes, the mentors and mentees continue to meet informally after the one year period is over. A manual for the mentorship training is also available.

### Mentors online training session:

Every year the annually Mentors alumni online gathering & training is organised for the first year it was held on June 28, 2020, second year December 08, and third year 2020 and December 04, 2021 to fill gaps and improve the mentoring program in future by understanding the issues faced by mentors and providing ways to address the issues. This was assisted by the creation of

WhatsApp group for an alumni network of mentors to exchange ideas and learn with each other.

### Mentees online training session:

The pilot IDC-APGFWN online 2 half-day training program was held on 18 and 25 April 2020 in the first year and then followed every year annually on May 10, in 2021. The training goal is to build up the alumni network of women who have been part of our mentoring program over the past four years. Annually now one training is held for mentees in the first half of the year and another for mentors in the last months of the year.. We aim to keep building skills, identify future training needs, and meet the goals outlined for the Women's Network.

### National Mentoring Program

A National Mentoring program is planned to organise pilots in Nepal and Japan as to strengthen the national women's network and work of women inside of those parties.

## Webinars Series

From 2018-2021, the Asia Pacific Women's Network held a number of Webinars featuring Green women from around the globe. Each woman brought a wealth of experience and knowledge to issues of great importance to Green women around the world from - how to organise & facilitate meetings; to women standing for local elections. " The webinars are open to all women members of Green Parties. Previous webinars can be found on the APGF website and YouTube channel and remain a useful tool for our other program work.

### Mini course: Skill development programme

In 2021, to cover the requirements of mentees in the mentoring programme, three webinars were combined into modules in a mini course. on recurring issues identified by participants. Mentees learn how to organise and facilitate meetings; campaign for election; and to revitalise or set up a national Greens women's network..

## Project Management Training

In June 2021, APGFWN organised its first Project Management day training with Pathways Australia, a professional training provider. The training was offered, as part of a skills development initiative of the Network, to key APGFWN members whose work in green parties and movement involved project management. This was a cooperative initiative between APGF and the IDC.

# APYGN Annual Progress Report 2021

03 January 2022

## Introduction

The Asia-Pacific Young Greens Network (APYGN) is a network of young representatives, of Asia-Pacific Greens Federation (APGF) Member Green Parties, who can connect, support, collaborate, communicate and share knowledge and experiences with each other. APYGN was reestablished in April 2020.

The ultimate goal is to provide a platform for young people within the Asia-Pacific region who are working towards a green goal or taking part in Green politics, to find supportive and informational help for them to progress within the region. Creating a sense of inclusion for young people is an important aspect for the APYGN: young people are now more aware but they lack visibility which hinders their enthusiasm and discourages them. This report reflects the progress and the challenges faced by APYGN during the year 2021.

## Challenges

In the previous year, APYGN had 11 active members. Active participation from the members and member parties has been inconsistent since the inception of the APYGN because of many reasons that include the level of the youth wings' activity within their country's system, internet accessibility, linguistic barriers and available time for volunteering in the midst of their highly demanding education and work life.

We launched our Instagram account this year. Unfortunately we lack audience from 'women' and 'other' gender categories. We need to build a strategy to reach out to diverse audience in order to insinuate green principles as well as offer our platform to young greens for support and awareness.

## Goals

We hope in the coming year, we will be able to mitigate those shortcomings, to strengthen at least 2 youth wings, and to have more active members including young groups not affiliated with the APGF.

For the Social Media, we are looking for a social media outreach officer volunteer to manage our accounts with a strategy that will strengthen our voice in the Asia-Pacific region.

## Members

Currently APYGN has active members from 10 Green Parties spread across the Asia-Pacific region:

- AUSTRALIA | Australian Young Greens - Australian Greens
- INDIA | India Young Greens - India Greens Party
- INDIA | Uttarakhand Students Organisation - Uttarakhand Parivartan Party
- IRAQ | Young Greens of Iraq - Green Party of Iraq
- JAPAN | Young Greens of Japan - Greens Japan
- LEBANON | Young Greens of Lebanon - Green Party of Lebanon
- NEPAL | Nepal Young Greens - Nepali Greens
- PAKISTAN | Pakistan Young Greens - Pakistan Green Party
- PHILIPPINES | Green Youth Philippines - Kabataan para sa Kalikasan (KALIKAS)
- TAIWAN | Taiwan Young Greens - Taiwan Green Party

## Key Achievements

### Multi-lingual Agenda Document

A multi-lingual agenda document has been prepared and tested which can be used for monthly meetings. We had encountered English language being a barrier for communication by some members and potential members, hence we introduced an excel document which would auto-translate from English to Arabic, Hindi, Urdu, Mongolian, Filipino, Bengali, Nepali, Chinese, Korean, and Japanese. The translation is done through 'Google translate', therefore there might be some errors in the translation but it is good enough for basic understanding of what's being discussed in the agenda. We did not have any members who would require us to use this document yet but we hope this will be a useful tool in the future which will enable us to welcome people from diverse regions.

### Webinar on Youth Activism

We successfully conducted a webinar in March 2021 about Youth Activism with Marinel Ubaldo - a young environmental activist from Philippines. The webinar was based on her first hand experiences with climate disasters in the Philippines and dealt with questions on how to advocate for the environment and how to mobilise others for the cause.

## Our Very First Project Proposal

While the APGF translated some of its Template policies, the APYGN launched an initiative of translating the Rights of Young People Template Policy into 7 Languages to be used by the APGF member countries: Arabic, Bahasa, Hindi, Mongolian, Nepali, Pijin, and Urdu. The translation of this template was a major initiative that provides a first step for the Green Parties of the region to pave the way for welcoming the young people in each country into the political side of things, and to protect, guide and support them in their endeavours.

## Glasgow 2021 | COP 26 & AlterCOP

Three APYGN Members participants in the Glasgow events this year: Janmejai Tiwari, from Uttarakhand Student Organization, and Jung Lin (Joanna), from Taiwan Young Greens, participated in the COP 26 as Global Young Greens (GYG) representatives, and Ayah Abdouny, from Young Greens of Lebanon, participated in the AlterCOP, an event organized by the Federation of Young European Greens (FYEG).

More about their experiences can be read here:

APGF News - “Bickering over punctuation while hundreds die”: Three Young Greens’ experience of COP26 in Glasgow

Green European Journal - On the Sidelines: Activist Views on COP26

## Policy Committee

After an extraordinary 2020, in which the Policy Committee and its consultant Suresh Nautiyal created 20 template policies for Green member parties, in 2021 the Committee has focussed on implementation, translation, and developing internal template processes in partnership with the Women's Network.

The 20 template policies, ranging from climate change and the environment, to health and education, participatory democracy to indigenous and tribal peoples, provide the foundations for a comprehensive Green policy platform. APGF's member parties welcomed the initiative and the policies' usefulness for election campaigns and platform development. The Policy Committee recognised the need to expand access to the policies through translation, as well as ongoing assistance on their use and implementation.

Building on translation work conducted in 2020, APGF received a further grant from the Australian Greens International Development Committee to translate all 20 template policies into Arabic. With member parties in Lebanon, Iraq, Jordan, and Palestine, these additional translations will ensure that our Middle East partners can fully benefit from APGF's policy development work. Additional translations into Tok Pisin (PNG Pidgin) and translation of the Rights of Young People template policy into 8 major APGF languages will also help ensure that youth and young people have a platform that centres their rights in Green politics.

The template policies, along with available translations to date, are available on the APGF website at <https://asiapacificgreens.org/what-we-do/template-policies/>.

Policies are only as good as their implementation. For this reason, APGF's Policy Committee implemented three webinars in 2021 to conceptualise, deepen engagement with, and encourage the Green movement to refine and integrate the template policies

into their national agendas. The first webinar, “Designing a Policy Committee and Process”, offered practical steps our member parties could take to rigorously evaluate and expand upon APGF’s template policy work in their own contexts. The second webinar, “How to turn Policies into Campaigns”, was a masterclass on the intersection of campaign strategy and policy initiatives to build a Greener world. The final webinar, “What is Green Politics”, was held as the opening session of the APGF 2021 AGM. The more than 40 participants learned from global thought leaders on the philosophical and underlying mechanisms guiding a Green approach to solving the challenges of today and in the future.

The Policy Committee is incredibly grateful to the speakers and leaders who presented these webinars. Your wisdom and insight was energising and powerful, and we are so thankful for your support.

We have now turned our attention to template internal policies and procedures that can help ensure that APGF and our member parties’ values are reflected in how we do business. This collaboration with the APGF Women’s Network has already born fruit, with policies agreed on the Prevention of Sexual Exploitation, Abuse, and Harrassment (PSEAH), grievances and grievance handling, and safe meeting practices. These practical tools strengthen APGF’s internal processes, and have been strongly recommended for adoption by our member parties. We look forward to continuing to work with the Women’s Network developing further internal policies on gender quotas and candidate selection that will further strengthen and embed APGF’s commitment to gender equity and empowerment of marginalised groups.

Finally, having served as its Convenor for two years, the Policy Committee would like to extend its thanks to Chantal Grut, who stepped down from her role late this year. Thank you so much for your leadership and steady hand, and best of luck for your future endeavours, both within and outside the Greens.

## Fundraising Committee

As APGF has continued to grow the breadth and depth of its support to our member parties over the past year, our ambitions are limited only by our resources. People like you are the backbone of everything we do, and our success hinges on the people standing beside us, whether as donors, volunteers, and myriad other roles that allow us to be a voice for a Green future across the Asia-Pacific.

The Fundraising Committee has been hard at work over 2021 to connect people to opportunities to learn about and support our movement. This year, we evolved from a project team into an ongoing Committee, bringing together the skills and expertise of Greens across the region to strengthen our engagement with change-makers and build our financial capacity to achieve our goals. We believe that change starts with connection, and we have been focussed on creating pathways for Greens to learn about and support the work that APGF and our member parties to make that change a reality.

That connection is why we have prioritised sharing the stories of the people and parties making change across the Asia-Pacific in our new quarterly newsletter. We now have over 200 people deepening their engagement with international Green politics and the impact that Greens are making across the region - and the number is growing every week. Feedback on the newsletter has been great, giving ever-more people the chance to connect with our global movement. If you haven't already, you can sign up to receive the newsletter on our website at [asiapacificgreens.org](https://asiapacificgreens.org).

Over the past year we have implemented two of the biggest crowdfunding campaigns in APGF's history. Our first campaign, in April and May, focussed on the fact that women and young people are the future we need. It highlighted the work of our Women's and Youth Networks and the amazing contribution young people and women are making to build a better future. The Networks have continued to thrive since. Our second campaign, in

November, showcased the amazing work that APGF does to connect activists across our region, and the impact that this collaboration is having to address the challenges of our time. Now more than ever, the strength of Green voices calling for change depends on solidarity within and between our communities, and APGF is proud to support our activists and leaders across the region in their struggle for the future we deserve.

More than 100 people stepped up over 2021 to support these campaigns, and with them, our ability to make real change. Your generosity and steadfast support give us the tools we need to build our movement and help those on the ground change their communities and their futures. We are so grateful for your contributions and to have you with us as we build a better tomorrow. Thank you!

As we look to the year ahead, we are excited to provide a 4-day fundraising bootcamp for up to 30 people across our member parties. Supported by a grant from the Australian Greens IDC, the training will provide invaluable insights that our members will be able to leverage and grow their parties and influence. The training, in March, will be followed by three peer-support sessions over the year, creating a community of Green fundraisers across our parties who can continue to grow and learn together in the future.

The Policy Committee is also looking to build on the success of our fundraising appeals, providing more people with the information and opportunity to support the incredible work of APGF and our member parties. We will also be reviewing what fundraising assistance and support we are able to provide to our member parties and movement, building our collective capacity to change the world.

Once again, we are so grateful to people like you who have donated to APGF over the past year, and supported us in many other ways as well. We can't do it without you.

If you or a friend would like to donate to APGF, please head to our website at [asiapacificgreens.org/donate](https://asiapacificgreens.org/donate).

## **ANNUAL REPORT 2021**

### **Full Members**

**Green Party of Aotearoa New Zealand**

**Green Party of the Solomon Islands**

New Zealand

# Green Party of Aotearoa New Zealand

greens.org.nz

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Over the last 12 months the Green Party of Aotearoa has made significant gains connecting climate action with social issues. Although the Green Party of Aotearoa did not return to government in 2020, we took up two Ministerial portfolios which include James Shaw as Minister of Climate Change and Associate Minister for the Environment (Biodiversity) and Marama Davidson as Minister for the Prevention of Family and

Sexual Violence and Associate Minister of Housing (Homelessness).

**Some key achievements include:**

- We secured the Carbon Neutral Government Programme which will require public sector agencies to measure and publicly report on their emissions and to offset any they can't cut by 2025. This was coupled by supporting strong submissions on the Climate Commission draft report and introducing new government incentives for electric vehicles. We also supported submissions on the Government's Emissions Reduction Plan and James Shaw is overseeing the ministerial work on that plan.
- We drove campaigns to support a bill prohibiting conversion practices and the Births, Deaths, Marriages and Relationships Registration Bill that will allow self-identification for transgender, non-binary and intersex New Zealanders.

- Our Te Mātawaka (Māori and Pasifika) caucus was formed and has led successful campaigns for Māori health and housing.
- We drove changes to government policy so that better support will be provided to those who suffer birth injuries and we ran a significant campaign to draw attention to housing inequity across the country, as well as secured more support for transitional housing places. Marama Davidson launched a strategy to eliminate family and sexual violence.
- We also provided international outreach by supporting the Scottish Greens in their journey to form part of the government for the first time.
- Our constitution is currently under review via extensive consultation with our membership.

### What are the political opportunities and challenges for your party next year?

The Green Party will continue to have the opportunity to work with the Labour Party in Government but there are limits to what can be achieved with only two ministerial positions, both outside of Cabinet. A wide reaching Emissions Reduction Plan will need to be implemented in order for Aotearoa New Zealand to meet its climate goals and this will rely on cross-party support. The 2022 Local Body Elections offer a significant opportunity to increase Green representation at the local level and the Green Party will be seeking to support candidates across the country with the aim of achieving the largest number of Green representatives to date.

### What is the political situation in your country?

Aotearoa New Zealand has a democratically elected national government through the MMP (Mixed Member Proportional Representation) voting system. Currently the Labour Party have a political majority and the Green Party (are the only other political party to) have two Ministerial portfolios outside of Cabinet. This was enacted through an agreement with the Labour Party after the 2020 general election and includes areas of cooperation on climate, environment and child and community wellbeing issues. The Green Party will support the Labour Government on procedural motions in the House and at Select Committees, and does not oppose it on matters of confidence and supply. Aotearoa elections happen every 3 years and the next general election is scheduled for 2023. The next local government elections will happen in 2022.

## Finance:

### What is the financial position of your party/organisation?

The Green Party does not receive many large donations or any corporate donations. It relies on the generosity

of its flaxroots members and supporters who provide financial contributions and volunteer hours. The three year general election cycle means that donations are highest in the election year, drop off considerably in the following year, and begin to pick up again in the year before the general election. With ongoing operational costs, including the salaries of a small core team of Party Office staff, the party is operating in a deficit budget in 2021 but expects to return to surplus in 2022.

## Membership and Leadership:

### How many official party members do you have?

4043

### How many female official party members do you have?

Not recorded

### Does your party have a women's network or women's group?

Yes

### If you have a women's network or group, how many women members are involved, and when was the group formed?

63 members. Revived in 2021

### If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

We have provided some training throughout the year such as Te Tiriti o Waitangi training, Rainbow competency training, campaign training, treasurer training and membership secretary training but did not record the gender of participants

Women: n/a

Men: n/a

### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
14	Not recorded	Not recorded

### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
22	Not recorded	Not recorded

## How many non-binary people hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
1	Not recorded	Not recorded

## Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?

Yes, but it is in need of updating (to be completed alongside the constitutional review)

## Political representation:

### How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
10	n/a	11

### How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
7	-	7

### How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
3	-	4

## What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.

General Election 17 October 2020

5.74% Electoral Vote

7.86% Party Vote

## How many women were candidates for your Party at the last local or provincial elections? What years were those elections?

Not recorded

## How many men were candidates for your Party at the last local or provincial elections?

Not recorded

## What is your candidate selection process? How does your party decide who will be a candidate representing the party?

**General Election:** Each province opens a candidate selection pool and administers the process for deciding who is selected into the pool (usually involving interviews) and who is then selected from the pool to be a candidate (usually via a decision making process that involves province members). The Party can veto any candidates if deemed to be of political risk. For candidates who wish to be ranked on the Party list (under the MMP system), a candidate conference is organised where delegates from the membership vote on a preliminary list. The delegates report the preliminary list to the membership, after which all Party members are given the opportunity to vote on final list ranking.

**Local Body Election:** Each province opens a candidate selection pool and administers the process for deciding who is selected into the pool (usually involving interviews) and who is then selected from the pool to be a candidate (usually via a decision making process that involves province members).

## List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)

- Co-leaders: Marama Davidson, James Shaw
- Co-convenors: Penny Leach, Wiremu Winitana
- Policy Co-convenors: Caroline Glass, Lawrence Xu-Nan
- Te Rōpū Pounamu Kaiwhakahaere: Darleen Hoff-Nielson, Rōpata Moore
- Assistant Party Secretary: Matt Taylor
- Treasurer: Jan Harrison
- Standing Orders Convenor: Daniel Jackson
- International Secretary: Francisco Hernandez
- Asia Pacific Greens Federation Councillor: Emily Sutton
- Party Membership Secretary: Benjamin Kearns

## List any ideas or plans you have for the upcoming year?

Our focus for the next year is on the Local Body elections. The MPs elected to Parliament will continue

to fight for a range of climate and social issues. We also expect to complete our constitutional review next year.

**Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets).**

No

**Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes,**

**how have you implemented it? If no, do you have a different one?**

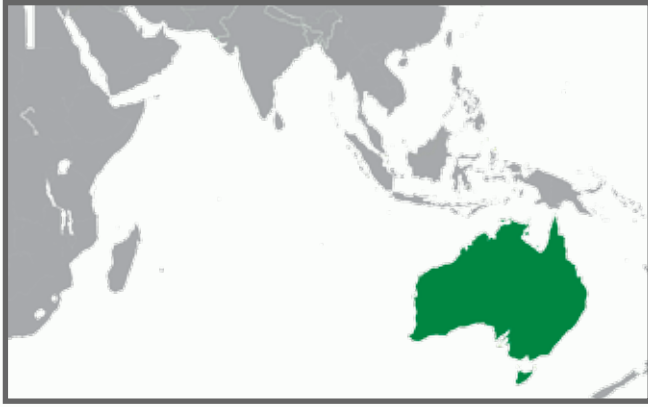

No. We do not have an internal women/gender equity policy but we align our practice with our Party's external facing Women's policy [https://www.greens.org.nz/womens\\_policy](https://www.greens.org.nz/womens_policy).

**Is there anything else about gender equity in your party that you would like to report?**

A current focus is how to support gender diverse and intersex members, particularly in achieving leadership positions.

Australia

# Australian Greens

greens.org.au

*Australian Greens Leader Adam Bandt with Co-Deputy Leader and Queensland Senator Larissa Waters, candidate for Griffith Max Chandler-Mather and a team of volunteers stop for a selfie before heading out to talk to local Brisbane residents armed with the Greens plan to Fight for our Future*

## Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)

Yes

## Are you a registered political party in your country/province?

Yes

## Describe any major developments within your party during 2021:

The Australian Greens have undertaken a year of preparation and review – it has reviewed its financial and governance structures to set itself up for electoral success in the new year.

The Australian Greens have been undertaking a reflective initiative to better engage with First Nations people and decolonize itself. This work is ongoing.

## What are the political opportunities and challenges for your party next year?

There will be a federal election in 2022 – The Australian Greens and its Member Bodies are well positioned to achieve electoral success and specifically attain the balance of power in federal parliament.

## What is the political situation in your country?

COVID-19 has seen a mixed bag of political decisions. Our country is woefully behind the curve in terms of addressing environmental and climate concerns – our conservative government is uninspiring and happy to

continue to make decisions based on short-termism, that benefits itself, and is entirely at odds with science and a long term vision of intergenerational equity and a future that isn't at others' expense.

Finance:

What is the financial position of your party/ organisation?

We are financially sound and are continuing to make gains as we increase corporate memory and staff retention.

Membership and Leadership:

How many official party members do you have?

Around 15,000.

How many female official party members do you have?

Around 7400.

Does your party have a women's network or women's group?

Yes, though the national organisation is limited at present. Different states and territories have their own groups with varying degrees of engagement.

If you have a women's network or group, how many women members are involved, and when

was the group formed?

See the above.

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

This data is not readily available and varies across the country.

How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
4 of 7 (office bearers), 9 of 20 (national committee of management)	Data not readily available	Data not readily available

How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
3 of 7 (office bearers), 11 of 20 (national committee of management)	Data not readily available	Data not readily available

Victorian Greens MPs and volunteers join tens of thousands of student strikers at protests in March 2021

*Yamatji Noongar woman and Greens Senator for WA Dorinda Cox (centre), flanked by Gunnai, Gunditjmara and Djab Wurrung Victorian Senator Lidia Thorpe (left) and NSW Greens Senator Mehreen Faruqi (right), enters the Senate as first female Aboriginal Senator from Western Australia.*

**Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?**

Yes. Available if needed.

### Political representation:

**How many elected representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
10	21	Data not readily available

**How many elected female representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
6	11	Data not readily available

**How many elected male representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
4	10	Data not readily available

**What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.**

10.4% (national election) 18 May 2019

**How many women were candidates for your Party at the last local or provincial elections? What years were those elections?**

Data not readily available

**How many men were candidates for your Party at the last local or provincial elections?**

Data not readily available

**What is your candidate selection process? How does your party decide who will be a candidate representing the party?**

Candidates are chosen at the local level by members.

**List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)**

- Convenors: Willisa Osborn, Matt Roberts
- Deputy Convenor: Gemmia Burden

- Secretary: Jonathan Parry
- Deputy Secretary: James Williams
- Treasurer: Heather Lonsdale
- Deputy Treasurer: Sue Etheridge

### List any ideas or plans you have for the upcoming year?

Our focus will be primarily occupied by the federal election. This will be followed by a post election evaluation that will feed in to our new operational and strategic plan.

### Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)

We have not set a target.

### Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?

We have not. We do not have mandated equity at the national level of the party.

### Is there anything else about gender equity in your party that you would like to report?

Leadership positions and participation by women in the party is generally not seen as a concern. Our party is almost evenly split in gender for membership.

Submitted by: Jonathan Parry, National Secretary

Bangladesh

# Bangladesh Green Party

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

No

**Describe any major developments within your party during 2021:**

- Nothing big to mention, as the COVID pandemic limited our activities.
- Some women participated in training programs.

**What are the political opportunities and challenges for your party next year?**

There are many challenges in our near future. Due to the pandemic most of our members left the city, making organising difficult. We have to look for new members, especially women members. Need funds.

But right now we have no capacity to run our office and expenses.

**What is the political situation in your country?**

Last 12 years is the same party ruling the country, situation is like earlier.

**Finance:**

**What is the financial position of your party/organisation?**

Our financial position is now zero - no office, no staff, nothing is with us.

**Membership and Leadership:**

**How many official party members do you have?**

Not available

# India Greens Party

[indiagreensparty.org](http://indiagreensparty.org)

## Are your policies aligned to the Global Greens Charter?

Yes (see <https://indiagreensparty.org/policies/>)

## Are you a registered political party in your country?

Yes. India Greens Party is Registered with the Election Commission of India under Section 29A of the Representation of the People Act, 1951. Registration Number: 56/476/2018-19/PPS-I, effective from 18/07/2019.

## Describe any major developments within your party during 2021:

In the year 2021, the India Greens Party has been able to add several milestones to its political journey in India. They are:

- a. The iGP inaugurated its national head office (NHO) at Greendham Anandi-Chait, Indra-Balbhadrar Parisar, Unchir-Dunktok, SH-31, PO-Ghurdauri, Distt-Pauri Garhwal, Uttarakhand-246194 on the Republic Day of India in January 2021;.

- b. The iGPWN women participated online in the Train the Trainers Gender Equity programme conducted by the APGFWN;
- c. The iGPWN conducted the Gender Equity Training workshop for the party's women members of Brihan Mumbai and Maharashtra;
- d. The iGPWN conducted the Gender Equity workshop for the iGP women members of the Chhattisgarh state;
- e. Elected the Brihan (Greater) Mumbai State Executive Committee;
- f. Elected the Chhattisgarh State Executive Committee;
- g. Organised the first ever 3-day Green Camp at its national head office (NHO) situated in the state of Uttarakhand, from 28 to 30 October 2021, in which several PAC Members participated offline; and others attended it online. The deliberations in the iGP Green Camp may be summarised as follows: More awareness about Green Ideology, Green Philosophy, and Green Politics; more awareness about the Green parties in several parts of the world, four regional federations of the Green parties, Global Greens, and APGF; Knowledge about Green

values, Green principles, cognitive and other types of biases, etc; The outcome of the Green Camp resulted in the following documents: Unchir-Dunktok Declaration, iGP Pledge, Press Release, and Footage and recordings of the deliberations for future use. The impression of the Camp was that it was an innovative experience. It provided us the opportunity to know each other in a better way, and without the biases which we develop knowingly and unknowingly. Brought more clarity on several aspects of life and Green Ideology. It also gave us hope that there are people in the Party who can take it to the new political heights and soar high in the skies. A message writ large is that there is a great future for Green Politics, and the India Greens Party. Of course, we need to further improve our syllabus and methodologies. In a nutshell, it was an historical event in the context of Green Politics in India;

- h. Organised its second National Convention online on 17-18 November to hold its National Council meeting and elect its new National Executive Committee (NEC) for two years till November 2023. The party also amended its constitution; and added several new features to it like – the party now has two Co-Presidents (female and male/other). The new NEC is inclusive and comprehensive in the sense that it has good representation of the marginalised and minority communities in it with gender balance. All major communities have been included in the NEC. The decision-making body Political Affairs Committee (PAC) has gender balance.

### What are the political opportunities and challenges for your party next year?

India is a very diverse country -- be it society, ethnicity,

religion, language, economy, politics, or anything else. The opportunities and challenges are diverse as well. The present political system in the country does not allow us any opportunity. Indian democracy is based on the Westminster pattern and First-Past-The-Post system which hardly creates any space for smaller parties. Only participatory democracy based on proportional representation can create opportunities for a small party like the India Greens Party; and our struggle for that shall continue till the success. However, we see the following opportunities in the next years:

- a. We plan to field candidates in the Assembly elections which are due in several states.
- b. Revitalise the 100-Point Reachout Programme in the state of Chhattisgarh. Under this programme, the state unit of the party plans to hit a hundred destinations in the state to spread Green Politics, and make known the party among the masses.
- c. Revitalise the She Will Run (SWR) campaign in the state of Chhattisgarh. Under this campaign, women in the state will be encouraged to join Green Politics and iGP. The intent is to field more than five women candidates in the Chhattisgarh Assembly elections in 2023.
- d. Elect State Executive Committees in the states like Maharashtra, West Bengal, Delhi, Gujarat, and Uttarakhand.

### What is the political situation in your country?

The political situation in India remains volatile and fluid because of domination of the rightist parties and politics. There are ongoing efforts to project patriotism as ultra-nationalistic. The present political system allows not very normal breathing but does not create

any space for the smaller parties. The political system is faulty, and the so-called national parties would not allow any space for the smaller parties. The point is that a political system cannot claim to be democratic if it has no space for the political parties of all progressive hues. The iGP is here to change all this and bring about a paradigm shift in the political thinking of the people in general.

## Finance:

### What is the financial position of your party/organisation?

The financial position of the India Greens Party is not stable. Somehow, we are managing our national head office (NHO) in the state of Uttarakhand with the support of Levy on the Political Affairs Committee (PAC) members and certain other office bearers and a few donors. Now, we have made it mandatory for all Primary and Active Members, for all NEC Members and all National Council Members to pay their fees. This effort will also add to the party treasury. Besides, the Fundraising Committee is chalking out a fundraising programme in consultation with the Strategy Committee of the party.

## Membership and Leadership:

### How many official party members do you have?

Approx 800 (Note: The Membership may drastically fall down if the Members do not pay their membership fee for the term – 2021-2023 as prescribed).

### How many female official party members do you have?

More than 200

### Does your party have a women's network or women's group?

Yes

### If you have a women's network or group, how many women members are involved, and when was the group formed?

The iGPWN was formed on 4 November 2019 after the first AGM on 2 November 2019. The Gender Equity Training programme on 3-4 November had resulted in the foundation of the iGPWN.

All women in the party are automatically considered part of the iGP Women's Network. At the moment, around 50 women members are active in the Network.

### If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: Approx 40

Men: Less than 15.

### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
Almost 50 percent	Almost 50 percent	No committees set up at the local level as yet.

### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
Little more than 50 percent	Little more than 50 percent	No committees formed at the local levels yet.

### Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?

We will be adopting the APGF policy on Grievances, etc, once it is finalised by the APGF Council. This policy with some customisation will be adopted and uploaded in the Policies section of the party's website – [www.indiagreensparty.org/](http://www.indiagreensparty.org/)

## Political representation:

How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.

The India Greens Party has not contested any election so far; hence no question of getting any percentage of votes, anywhere in the country.

How many women were candidates for your Party at the last local or provincial elections? What years were those elections?

Does not apply.

How many men were candidates for your Party at the last local or provincial elections?

Does not apply.

What is your candidate selection process? How does your party decide who will be a candidate representing the party?

The Parliamentary Board invites the applications for any election at any level. Then it scrutinises the applications and makes a final list of the candidates which must include at least 50 percent women candidates. The PAC takes the final decision keeping in mind all the perspectives making it inclusive and comprehensive. After the PAC decision, the candidates are supposed to contest as per party norms.

List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)

- National Co-Presidents: Ms (Dr) Apeksha Wasudeo Khobragade and Rajendra Minz
- National Vice-Presidents: (1) Michael Rajchandra, (2) Ms Rehana Siddiqui, (3) Ranmal Singh Jhala, (4) Prof Jyotirmoy Goswami, (5) Ms Madhubanti Sen, (6) Ms Lily Shanta Minj, (7) Ms Ishpriya Kaur Chadha, (8) Ms Nazeema AK, and (9) Rusi Burjor Nariman.
- Secretary-General: Prabhath Prabhakaran.

Rehana Siddiqui, (7) Ranmal Singh Jhala, (8) Ms Harpreet Kaur, (9) Ms Ishpriya Kaur Chadha, (10) Ms Vinita Menon, (11) Adil Rather, (12) Rahul Gupta Kodarapu, (13) Akarsh Sriramoju, (14) Ms Madhubanti Sen, (15) Ms Shivani Bhatt, (16) Ms Archana Patel, (17) Ms Nazeema AK, (18) Sunil Kumar Singh, and (19) Ms Sarika Dabral.

- National General Secretaries: (1) Parixit Kafley (Incharge, AS), (2) Ganesh Subramanyam (Incharge, BM), (3) Rafat Jamal (Incharge, DL), (4) Adil Rather (Incharge, JK), (5) Sudarshan Chhotaray (Incharge, OD), (6) Ms Harpreet Kaur (Incharge, PB), (7) Akarsh Sriramoju (TS/AP), (8) Kesar Singh Waterkeeper (UK), and (9) Sunil Kumar Singh (WB).
- National Secretaries: (1) Ashish Thakuri (DL), (2) Ms Harleen Kaur (DL), (3) Santosh Lalwani (MH), (4) Ms Aakanksha Tiwari (RJ), (5) Bibhuti Deb Barma (TP), (6) Krishna Teja Perannagari (UK), (7) Abhishek Srivastava (UP).
- IGP Website Coordinator: Michael Rajchandra.
- IGP Website Deputy Coordinators: Rahul Gupta Kodarapu.
- Head Audio-Visual Team: Ms Harleen Kaur Gill.
- National Gender Equity Trainers: (1) Ms Madhubanti Sen, (2) Ms Shivani Bhatt, (3) Ms Harpreet Kaur, (4) Ms Nazeema AK, and (5) Ms Sarika Dabral.

Plus National Executive Committee, and National Council Members.

### List any ideas or plans you have for the upcoming year?

Please see response to question on opportunities and challenges for the next year.

### Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)

Yes, we are always determined to increase women's participation in the party. The constitution earlier had roles, responsibilities and positions up to 50 percent. Now, the constitution ensures at least 50 percent participation of women at all levels. The journey of "up to" to "at least" 50 percent has been challenging but ultimately we reached the new milestone. The at least 50 percent target has been achieved at the top

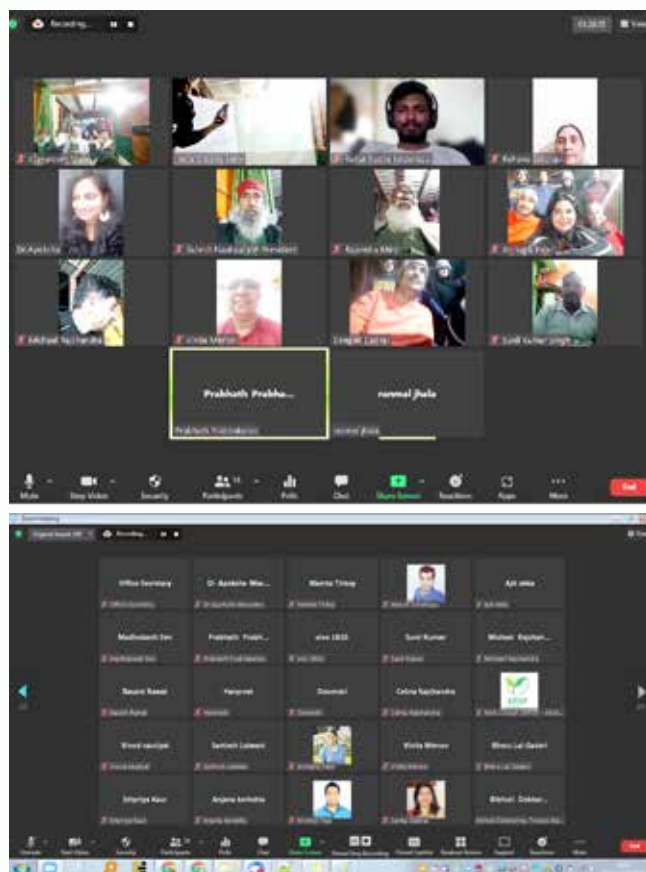

leadership; however, at other levels the target will be achieved gradually.

### Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?

Yes, the APGF policy -- Women and Gender Equity has been adopted by the party; and uploaded on our website -- [www.indiagreensparty.org/](http://www.indiagreensparty.org/)

### Is there anything else about gender equity in your party that you would like to report?

Gender Equity is a strong USP of the India Greens Party. We are working on it to percolate it to the grassroots level as well. The first step in this direction is the fact that we shall have Co-Presidents at the state and other lower levels as well.

Iraq

# Green Party of Iraq

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

No

**Describe any major developments within your party during 2021:**

We played an important role in the demonstrations against the governmental corruption.

Many online green workshop for our members and supporters.

**What are the political opportunities and challenges for your party next year?**

- Registration of party
- Increase women members

**What is the political situation in your country?**

Foggy, especially after the result of national elections, which has led to armed actions between different major parties.

The Green Party of Iraq boycotted the election due to expected fake result.

**Finance:**

**What is the financial position of your party/organisation?**

Very bad. As we don't have any governmental support, all activities were covered by donations of a few members.

## Membership and Leadership:

How many official party members do you have?

150

How many female official party members do you have?

35

Does your party have a women's network or women's group?

Yes

If you have a women's network or group, how many women members are involved, and when was the group formed?

10 in 2019

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: \_

Men: \_

How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

# Greens Japan

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Akiko Kando, one of our Steering Committee members won a seat in the Tokyo Metropolitan Parliament.

**What are the political opportunities and challenges for your party next year?**

We are going to hold National Elections for the Senate. We are discussing if we will have our candidate or skip the election because of the lack of financial and Human Resources. In the latter situation, our option would be to support some candidates from the opposition parties who has relatively closer policies to us.

**What is the political situation in your country?**

In 2021 National General Elections the LDP, the ruling party won more than expected and their power was strengthened. Opposition parties are criticized their strategy of electoral coalition from many citizens. It is a tough time for us the oppositions.

Korea

# Green Party Korea

**녹색당**  
대안과 숲, 환경의 씨앗

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Green Party Korea has been refocusing on addressing its organizational problems and strengthening the party internally. The party established new

committees, including the Health and Society Committee, Gender Equity Committee, and Public Office Candidate Selection Committee. Green Party Korea elected new co-leaders, Yeh Won Kim and Chanwhi Kim, and had our first National Executive Members election.

**What are the political opportunities and challenges for your party next year?**

There will be a presidential election (March 9th) and a local election (June 1st). Green Party Korea decided not to field a presidential candidate. Local Green Parties announced that they would participate in the local elections and field candidates for provincial and municipal legislatures, governors, and/or mayors. Korean Greens find it imperative that the coming year's

elections focus on green agendas such as climate crisis, care and labor, and comprehensive guarantee of rights against all forms of discrimination.

### What is the political situation in your country?

The 2021 Korean by-elections had seen an increase in the number of female candidates due to the sexual harassment cases of the incumbent mayors from the ruling Democratic Party. The conservative People Power Party won the mayoral positions of the two largest cities in Korea, Seoul, and Busan. The by-elections demonstrated that the country remains bipartisan.

In December, five progressive parties - Green Party, Justice Party, Basic Income Party, Progressive Party, and Mirae Party - and green organizations and thinktanks launched a "Climate Presidential Election Movement Headquarter" to urge the candidates to lead an election for climate justice.

Ahead of the 2022 presidential and local elections, the National Assembly passed a bill in December that lowers the age of candidacy for parliament and local elections from 25 to 18, showing the two major parties' effort to appeal to young voters.

A number of the public debates that covered in Korean politics in 2021 include: decriminalization of abortion, comprehensive anti-discrimination bill, COVID-triggered massive lay-off of essential workers, basic income, climate change litigation and climate strike, anti-discrimination bill, care work and care labor, gendered discrimination in employment (recruitment, pay gap, misogyny, and sexual violation), lenient

rulings on digital sex crimes, denuclearization (as it was the 10th anniversary of the nuclear disaster in Fukushima), Korean conglomerates' association with the military junta in Myanmar, government's false promise on anti-coal "beyond coal" measures, and corporate green-washing.

### Finance:

#### What is the financial position of your party/organisation?

We are not financially sound at the moment.

### Membership and Leadership:

#### How many official party members do you have?

9,555

#### How many female official party members do you have?

5,242

#### Does your party have a women's network or women's group?

Yes

#### If you have a women's network or group, how many women members are involved, and when was the group formed?

Current members: 17 women. Formed in 2015

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: 10\*

Men: 10\*

How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
X	X	X

What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.

4 GPK candidates (proportional representation) ran for the South Korean general elections in 2020. Together they garnered 0.21% of the total votes (58,948 votes).

How many women were candidates for your Party at the last local or provincial elections? What years were those elections?

- 2020 general election: 4 women candidates (general - proportional)
- 2018 local elections: 25 women
- 2016 general election: 3 women candidates (general - proportional) + 2 (general)

### How many men were candidates for your Party at the last local or provincial elections?

- 2020 general election: 0 men candidates
- 2018 local elections: 6 men
- 2016 general election: 2 men candidates (general - proportional) + 3 (general)

### What is your candidate selection process? How does your party decide who will be a candidate representing the party?

1. Receive nominations/recommendations from regional/district green parties
2. Regional/district green party steering committees resolution and approval
  - Upon requests from local green parties, the national candidate qualification committee can review and approve candidate(s)
3. Regional/ national election by members

### List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)

- Co-leaders: Yeh Won Kim, Chanhwi Kim
- General Secretary: Yuhyun Chung
- Treasurer: In Soon Kim
- International Secretary: Soohee Lee & Chulseung Lee

### List any ideas or plans you have for the upcoming year?

Our primary focus will be the local elections. Once the evaluation of the 2022 local election results is done, the party will be actively involved in the 2023 Global Greens Congress preparation.

더 늦기 전에, 지구를 위한 행동  
!전소 전면 백지화, 끝까지

### Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)

No. There isn't a target. However, the party's Women's Committee, Gender Equity Committee, Minority Committee, and women's agenda and issue groups are actively launching events, training, programs (book clubs, webinars), etc, and have been vocal in providing women and gender-related statements and policies which have been well received by women outside the party.

### Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?

We have not. We have gender equity and gender balance clauses and articles within the party constitution, rules, and regulations.

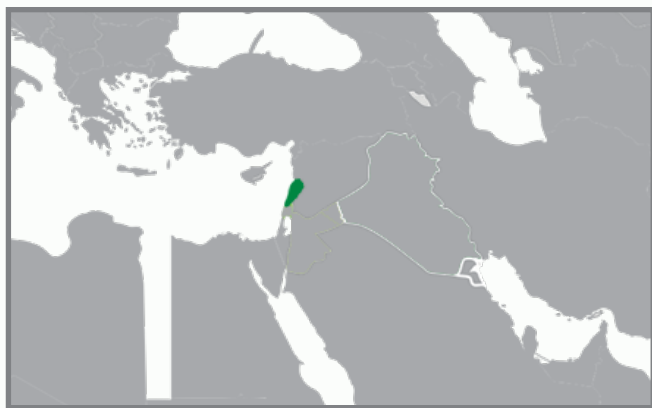

### Is there anything else about gender equity in your party that you would like to report?

Green Party Korea upholds Article 6 (Principle of Equality) of its Constitution. In order to realize practical gender equality, in principle, all representative organizations and committees of the Party should have a female ratio of 50% or more. The Constitution, well in effect and monitored, guarantees 50% of all GPK candidates to be women. Korean Greens have "GPK Pledge for an Equal Party Culture" which is recited at the beginning of all GPK meetings.

Lebanon

# Green Party of Lebanon

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

New elections last September, lead to restructuring the internal roles.

**What are the political opportunities and challenges for your party next year?**

**Opportunities:**

- PM elections are due in May 2022 – some members are candidates.
- Increasing members and commitment

- Working on a green economic recovery for Lebanon

**Challenges:**

- The Lebanese crisis: economical, currency and political
- Short of finances.

**What is the political situation in your country?**

Democracy didn't help in avoiding Corruption. The polarization of different political actors does not help in preventing Lebanon from further deterioration. The civil movement is not clear yet. Hoping to get prepared for the coming elections. There's a lot of international interference in the Lebanese politics. (USA, France, Iran, Syria, KSA and others)

**Finance:**

**What is the financial position of your party/organisation?**

The financial position is Zero. Funds from IDC & the Bureau De Helling (Dutch) barely cover the website

upgrade or having some trainings and the latest national conference.

Membership and Leadership:

How many official party members do you have?

Around 570

How many female official party members do you have?

Approximately 50%

Does your party have a women’s network or women’s group?

Yes

If you have a women’s network or group, how many women members are involved, and when was the group formed?

Women are enrolled in other women’s networks that address the various women issues in the country. So the number is not exact until now

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: 15-16

Men: 10

How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
None	none	1

How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
None	none	4

Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?

No, because we advocate for this issue collaborating with specialized NGO’s.

Political representation:

How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
None	None	None

What was your party’s percentage vote at the last election you contested? Please also provide the date and level of your last election.

The % vote was negligible, because the party coalesced with other parties in the elections of 2018.

All 4 candidates failed in the parliamentary elections.

Due to an unjust law of elections and the hesitant notice to do the elections or not.

**How many women were candidates for your Party at the last local or provincial elections? What years were those elections?**

-

**How many men were candidates for your Party at the last local or provincial elections?**

We don't have provincial elections

**What is your candidate selection process? How does your party decide who will be a candidate representing the party?**

1) Candidate's nomination, 2) Review of eligibility, 3) Data analysis.

**List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)**

- President - Fadi Abi Allam
- Vice-President - Mohamad Khawli
- Secretary - Rita Bustani
- Treasurer - Ghassan Dalibalta
- International Secretary - Imad Farhat

**List any ideas or plans you have for the upcoming year?**

Planning a strategy for a green economical recovery, and follow up of past decisions. Prepare for the upcoming national elections in 2022 and local government elections in 2023.

**Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)**

There's a target to increase the number to 1000 new participants, of which half must be women.

**Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?**

The policy is respected and followed even before we learnt about it at APGF WN. Since one of the party's presidents was a woman. There's an understanding to be inclusive of the various elements in the society- Men, Women, people of different abilities, different sects, different regions, etc.

**Is there anything else about gender equity in your party that you would like to report?**

No

Mangolia

# Mongolian Green Party

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

We opposed to the presidential and by-elections, demanding electoral reform and an end to electoral

fraud by Electronic Voting Machine.

We participated regularly in public demonstrations to protect civil rights.

During the pandemic we organized events to give our message to the government to the people to provide our citizens with basic income through solar energy.

**What are the political opportunities and challenges for your party next year?**

Because we would get new law for political parties, which would expect higher level of membership of parties to participate in election, that is why we would focus on increase our memberships by implementing social oriented project like basic income, renewable

energy and reforestation with cooperation with our NGO Green Coalition.

### What is the political situation in your country?

Because of the Corona, people elected last two elections (2020 & 2021) the old People`s Party demanding more stability and safety. But the handling of the pandemic was not fair and not efficient and reasonable. People are not satisfied of the policies government make. There is a movement called #NoDoubleStandard stating that the government and government related, party related people are having double standard towards the pandemic regulations, which was very harsh at the beginning causing lot of unnecessary deaths and financial loss, because of quarantines of various arts. The main opposition Democratic Party is divided in two pieces is most valuable asset to the ruling party. The new political Party HUN-National Labor Party had very successful presidential election overcoming Democratic Party, is a major threat to the Democratic Party in the future, accused of support from the Peoples Party.

### Finance:

#### What is the financial position of your party/organisation?

Our party is financed mostly from fee of members of small meeting, and chairman.

### Membership and Leadership:

#### How many official party members do you have?

2100

#### How many female official party members do you have?

1600

#### Does your party have a women's network or women's group?

Yes

#### If you have a women's network or group, how many women members are involved, and when was the group formed?

Now we have Women's Network for implementation of basic income project.

Those are members of basic income cooperative, mostly about 20 are active involved in Women's Network group for basic income.

#### If you have provided training or internships in 2021 for your members, how many women participated

#### in the training or internship? How many men participated?

Women: 20

Men: -

#### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

4		

#### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
5		

#### Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?

We do not have and we should have one.

### Political representation:

#### How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
	1 representative in provincial level, but he is going to left our party for start up new party for human rights.	

**How many elected female representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
0	0	0

**How many elected male representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
0	1	0

**What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.**

In 2020 national parliament election we got 14,000 vote, which is 0,71% of votes.

**How many women were candidates for your Party at the last local or provincial elections? What years were those elections?**

Election to parliament in 2020 we had 5 women from 11 candidates, local level 3 candidates only men.

**How many men were candidates for your Party at the last local or provincial elections?**

6 National and 3 Local Candidates.

**What is your candidate selection process? How does your party decide who will be a candidate representing the party?**

The candidates are should be representing the program of our party for election and should be active in social works.

**List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)**

- President: Mr. Olzod
- Treasurer: Ms. Dorjkhand
- International Secretary: Mr. Dulgun
- Youth Network Convenor: Ms. Ninjin
- Women's Network Convenor: Ms. Ninjin

**Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)**

Women in our society not active for political job depending on tradition and education., but our party open for women, women network functioning if we have to cover the job cost, because women in our society more responsible for income of the family!

If we cannot pay for social job then the women activity will be decreasing, even the will of the women!

**Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?**

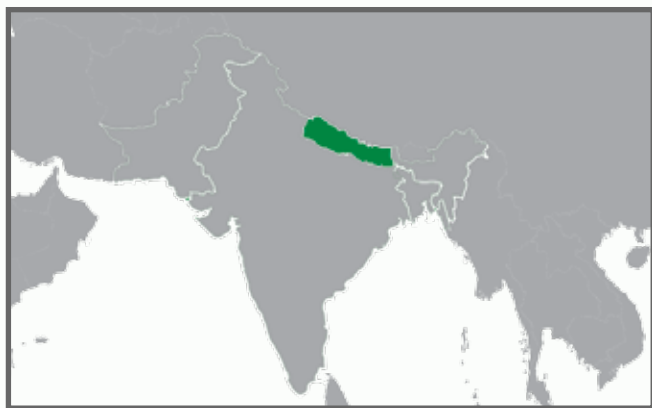

Yes, we build women network and implemented several project with APGF, but the project finished, the activists from women network left, sadly, now it would managed by Young Greens network!

**Is there anything else about gender equity in your party that you would like to report?**

We are trying to push our women more for political activities, but because of life style of Mongolian women are now more responsible for daily life of families, we hope it would be changed by Young Greens.

0	0	0

How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	0

How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	0

**What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.**

Less than 1 percent vote. The last general election held in 2017.

**How many women were candidates for your Party at the last local or provincial elections? What years were those elections?**

Two women contested for general election in 2017.

**How many men were candidates for your Party at the last local or provincial elections?**

No

**What is your candidate selection process? How does your party decide who will be a candidate representing the party?**

It has its own procedures.

**List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)**

- Beekay Shrestha, President
- Smita Acharya, Secretary
- Sheelu Adhikari, Treasurer
- Tika Bhandari, International Secretary

**List any ideas or plans you have for the upcoming year?**

Green Leadership School to empower more young women for green leadership.

**Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)**

Yes, we have a target of empowering 100 additional women leaders in 2021.

**Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?**

yes

**Is there anything else about gender equity in your party that you would like to report?**

No

Pakistan

# Pakistan Green Party

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Due to COVID19 most of our in-person activities were on hold. The party has reviewed its Constitution and adopted suggestion recommended by committee.

**What are the political opportunities and challenges for your party next year?**

It is expected to have local government election

across the country next year and we are planning to participate in large cities such as Karachi, Lahore, Peshawar and Hyderabad.

**What is the political situation in your country?**

Inflation rate is very high, and currency devalued against the Dollar, which increases commodity prices. People are not happy with overall situation. Current government popularity decreased and it is expected that they may not make government in future. Opposition not united therefore government do not have any threat but overall performance is very poor.

**Finance:**

**What is the financial position of your party/organisation?**

We do not have any saving right now, we are planning to start fundraising campaign before local government election.

## Membership and Leadership

How many official party members do you have?

2100

How many female official party members do you have?

760

Does your party have a women's network or women's group?

Yes

If you have a women's network or group, how many women members are involved, and when was the group formed?

All female members automatically become part of woman wing

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: 40

Men: NIL

How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

Taiwan

# Taiwan Green Party

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Due to COVID-19, much of our events and internal trainings are put on hold, but we collaborated with

local anti-nuclear groups to advocate against the referendum to restart the building of a nuclear plant in Taiwan.

**What are the political opportunities and challenges for your party next year?**

There's a local election in Taiwan and it's the level of election that GPT has great opportunities to win.

**What is the political situation in your country?**

Mostly two major parties (pro-independence and pro-China), with some third power who are leaning either way. Our relationship with China is the dominant issue

and other issues are either compounded by the China factor or outshadowed by it.

# Uttarakhand Parivartan Party

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

Party organized several campaigns, meetings, seminars and state consultations with people such as women, LGBTQIA+ workers, persons with disability, activists, survivors, laborers, students and indigenous people. Party did relief work during COVID-19 like distribution of ration, medicines, sanitary pads for women etc. Party strongly supported the farmers' protest and was active organizing demonstrations in support of the movement. Structurally, the party expanded its support group and supported Uttarakhand Student Organization in their initiative of Youth for Climate Action on the suggestion of two young greens Snigdha Tiwari & Janmejai Tewari after they returned from COP26 in Glasgow. Youth for Climate Action is formalizing as an extended campaign and movement group of Uttarakhand Student Organization, which

comprises young people across universities and schools The party is also actively campaigning for the coming legislative elections in 2022.

**What are the political opportunities and challenges for your party next year?**

Our state Uttarakhand is going to have legislative elections in 2022 and the main elections are in 2024. And we have opportunities particularly in terms of elections to win a few seats as well as increase our vote share. Further, there is also a fair opportunity for increasing membership of the party. With the young people coming into the party as volunteers, UKPP is optimistic with the potential of the party to have better social media presence as well as campaigns along with opportunities of fundraising and connecting with a larger population.

In the elections the national and bigger parties use muscle and money power so the elections are difficult. As well as the repression by the State is at its prime, there is constant threat and vigilance on the activists as well as senior members of the party by the state.

**What is the political situation in your country?**

Far right government is governing our country. The people of our country are losing their rights like the right to speak and can't protest against the wrong

things done by the system and government. Activists are being oppressed by the government. It has become difficult to do political activism, or any activism for that matter. There is shrinking democratic space in our country.

The policies to address the climate crisis, and other environmental issues, have fallen to the abyss. Moreover, there is a constant endeavor ensuing in actions by the Union Government to dilute laws for conservation of the environment to give a smooth entry to miners, polluters, corporates, etc.

## Finance:

### What is the financial position of your party/organisation?

UKPP is a small party with limited funds.

## Membership and Leadership:

### How many official party members do you have?

Approximately 5,000

### How many female official party members do you have?

Approximately 3,000

### Does your party have a women's network or women's group?

Yes

### If you have a women's network or group, how many women members are involved, and when was the group formed?

Yes, we have a women's network and there are one thousand five hundred women members involved and in 2013 it was formed. However, the core committee of

active women members who plan meetings and events are of 20 women members.

### If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

The party organized several workshops and national level consultations on environmental issues and state level consultations on gender and LGBTQIA+ issues, forest rights, capacity buildings of youth and providing support to youth movement etc. In many of these meeting more than fifty percent participants were women. However, in some of these meetings the participation of women was very poor and rather negligible. From the last year UKPP has also started inviting and having members of LGBTQIA+ community in all its training and meeting as a way to have more inclusive environment within the party as well as in the society. This is party's approach for capacity building.

### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

More than sixty percent of leadership is women leadership and in some units the complete leadership is women leadership.

National	Provincial	Local
3	60%	60%

### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
10	40%	40%

## Do you have an internal sexual harassment policy and procedures? If you do not, do you plan on making one?

The party functions in accordance of The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

## Political representation:

### How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	150

### How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	90

### How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	60

### What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.

The last election was the by election in April 2021 of legislative assembly and the party candidate got 1.25% of votes.

### How many women were candidates for your Party at the last local or provincial elections? What years were those elections?

The last by election was only for one seat. And the Dalit (socially marginalised caste in India ) male member of the party contested on party's ticket.

### How many men were candidates for your Party at the last local or provincial elections?

One

### What is your candidate selection process? How does your party decide who will be a candidate representing the party?

Decided by the PAC which is the higher decision-making body.

## List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)

- President: Mr. P. C. Tiwari,
- Vice President: Mr. Prabhat Dhyani
- Secretary: Mrs. Anandi Varma
- Treasurer: Mr. Kuldeep Madhwal
- International Secretary: Snigdha Tiwari

## List any ideas or plans you have for the upcoming year?

Build a strong movement, develop media, increase membership, look for structural change if any, develop sustainable strategy for fundraising, capacity building for social media campaign, along with an effort to bring new and young leadership of committed people to the executive body of the party and formation of expanded youth group of volunteers for Climate Action etc.

## Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)

Yes we have set a target for increasing women's participation and we are organizing meetings, seminars, consultation programs.

## Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?

Yes, we are following the policy of APGF women and gender equity template policy. And the implementation depends on the situation.

## Is there anything else about gender equity in your party that you would like to report?

-

Indonesia

# Partai Atjeh Hijau

**Are your policies aligned to the Global Greens Charter?** (see <https://globalgreens.org/about/charter/>)

Yes

**Are you a registered political party in your country/province?**

No - we are targeting to become registered in 2022.

**Describe any major developments within your party during 2021:**

Our party has established 11 party branches at the district level. This achievement has fulfilled the requirements to be registered as a party participating in the election. Currently, we are establishing a party branch at the sub-district level.

**What are the political opportunities and challenges for your party next year?**

We are very passionate about bringing green ideas into the political contest in Indonesia. For us the idea of green is a necessity for Indonesia's future safety. And we believe we can compete with other parties in Indonesia.

**What is the political situation in your country?**

Nowadays, many people are interested in political parties. Politics has become a new attraction for most people. However, political implementation is still in line with high levels of corruption and poor environmental management.

## Finance:

### What is the financial position of your party/organisation?

Our party's financial support is supported by the IDC program and self-help support from members

## Membership and Leadership:

### How many official party members do you have?

375 members

### How many female official party members do you have?

121 members

### Does your party have a women's network or women's group?

Yes

### If you have a women's network or group, how many women members are involved, and when was the group formed?

There were about 40 women involved and they were the women's wing of the party.

### If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: 37

Men: 112

### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
	6	14

### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
	2	3

### Do you have an internal sexual harassment policy and procedures? If you do not, do you plan on making one?

Not yet, we plan to arrange about it.

## Political representation:

**How many elected representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
0	0	0

**How many elected female representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
0	0	0

**How many elected male representatives do you have at national, provincial, and local levels?**

National	Provincial	Local
0	0	0

**What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.**

Last year, we were not contestants in the election

**How many women were candidates for your Party at the last local or provincial elections? What years were those elections?**

Female members of our party become candidates from other parties by bringing our party's vision and mission.

**How many men were candidates for your Party at the last local or provincial elections?**

Men members of our party become candidates from other parties by bringing our party's vision and mission.

**What is your candidate selection process? How does your party decide who will be a candidate representing the party?**

Through party deliberation by considering several mutually agreed indicators and the candidate's level of fame.

**List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)**

- Chairman - Zahrul
- Secretary - Fahmi Cherly
- Treasurer - Azharul Husna
- Coordinator for Strengthening the Party Structure - Alam Mirza

**List any ideas or plans you have for the upcoming year?**

Strengthening party structures at the district and sub-district levels, formulating election strategies, strengthening members, and formulating elegant campaign strategies.

**Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)**

Indonesia's party system requires a quota of 30 percent of women's representatives in parties and legislative candidates. Our party has a special women's party wing, one of its roles is to recruit members and strengthen the position of women. The party provides a strategic space in the party structure for women.

**Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?**

Yes, The APGF Women and Gender Equity template policy was disseminated to all members and made into a party policy. Each party policy integrates the APGF Women and Gender Equity template policy.

**Is there anything else about gender equity in your party that you would like to report?**

Gender equality is the focus of our attention in every policy.

Indonesia

# Partai Hijau Indonesia

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

No

**Describe any major developments within your party during 2021:**

1. In February, we succeeded in holding the first Indonesian Green Party Congress in Caringin Village (West Jawa) and South Jakarta (DKI Jakarta). Result:
  - 1.1. The constitution includes affirmation of the adoption of the Global Greens Charter, changes to the organizational structure and affirmation of minority groups.
  - 1.2. Election of the National Presidium which resulted in 5 leaders: John Muhammad, Roy Murtadho and Dimitri D. Putra as representatives of youth (under 30 years old policy), Kristina Viri as representatives of women, Taibah Istiqomah as representatives of women and representatives of members outside Jawa (Central Kalimantan).
2. In March-June, we started running the organization, among others:
  - 2.1. Establish a National Working Group:
    - 2.1.1. Public Communication;
    - 2.1.2. Funding;
    - 2.1.3. Organization and Outreach;
    - 2.1.4. Political Education;
    - 2.1.5. Elections;
  - 2.2. Some of the important activities of the organization:
    - 2.2.1. Preliminary research on potential voters and supporters of the New Political Party.

2.2.2. Publish party policies and press releases against a number of government policies, ranging from: UU KPK, UU Minerba to the UU Cipta Kerja.

2.2.3. Establishing a Presidium at the Provincial level

3. In July to September, with great sadness, due to the death of several of our important members due to Covid-19, we decided to focus on humanitarian activities by helping citizens and including party members who are suffering from Covid. This activity takes place under the control of the National Working Group on People Helping People.

4. Persiapan kepesertaan pemilu...melalui jalur independen

**What are the political opportunities and challenges for your party next year?**

Opportunities: independent candidates for GE 2024, Kerjasama dengan partai baru (Partai Buruh)

Challenges: We are still proceed with our effort to complete the party structure for registering the party as national political party (gained its legal entity) and then registered as candidate in 2024 election

**What is the political situation in your country?**

- Oligarch is still going stronger. Skema oligark dan relasinya dengan pemain industri kotor.
- Gerakan antikorupsi dilemahkan
- And government programs under the so called Proyek Strategis Nasional are high-cost and "patut diduga" being done for the benefit of several groups only especially in term of fund preparation prior to election time (2024)
- Eskalasi konflik meningkat, pemerintah lebih represif dengan pergerakan di masyarakat.
- Masyarakat sipil sedang berupaya bersatu. (berkonsolidasi)

Philippines

# Green Party of the Philippines Kalikasan Muna

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

No

**Describe any major developments within your party during 2021:**

- We have organized our membership and chapters
- Conducted major activities most especially the Manila Bay Region Kalikasan Muna Congress.
- Participating in the 2022 National Elections through a national candidate, David D'Angelo, President of the party running for senator as well as 10+ other

candidates for local positions.

- We were able to register our NGO counterpart Bayanihan Para sa Kalikasan Movement Inc.

**What are the political opportunities and challenges for your party next year?**

## CHALLENGES:

- Raising funds for the elections to support our national and local candidates.
- Getting finances for party expenditures.
- Consolidating membership.

## OPPORTUNITIES:

- Chance to have green candidates win in the 2022 elections.
- Strengthen party recruitment and membership management with the assistance of APGF.

### What is the political situation in your country?

The political situation in the Philippines remains pro-rich and those with resources. There is also an atmosphere of fear as the PH President is known for extra-judicial killings. In fact, the Philippines is on top of the list being one of the world's most dangerous places for environmental activists.

### Finance:

#### What is the financial position of your party/organisation?

We are currently struggling to raise funds for the party.

### Membership and Leadership:

#### How many official party members do you have?

421

#### How many female official party members do you have?

We have not yet quantified this at the moment

#### Does your party have a women's network or women's group?

Yes

#### If you have a women's network or group, how many women members are involved, and when was the group formed?

Dr. Rosemarie Mendoza, our Convenor for the Women Sector is currently forming this. We have no data regarding the actual number.

#### If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

N/A

#### How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
6	7	17

#### How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
26	32	36

#### Do you have a sexual harassment policy and procedures? If you do not, do you plan on making one?

We have none yet but this is presumed to be part of our party discipline and the constitution and by laws.

### Political representation:

#### How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	1	0

### How many elected female representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	0	0

### How many elected male representatives do you have at national, provincial, and local levels?

National	Provincial	Local
0	1	0

### What was your party's percentage vote at the last election you contested? Please also provide the date and level of your last election.

This is the first time that we are contesting the election.

### How many women were candidates for your Party at the last local or provincial elections? What years were those elections?

This is the first time that we are contesting the election.

### How many men were candidates for your Party at the last local or provincial elections?

This is the first time that we are contesting the election.

### What is your candidate selection process? How does your party decide who will be a candidate representing the party?

We have a party nomination process in which the candidate or a party member can submit nomination requirements.

### List the names and positions of your party's senior national leadership (for example, Convenor, Secretary, Treasurer, International Secretary)

- David D'Angelo : President

- Hilary Pangan : Chairperson
- Rachel Baldonado : Vice Chairperson
- Jeph Ramos : Party Secretary
- Raymond De Castro Gonzales : Secretary General
- Dr. Rosemarie Mendoza : Treasurer
- Anton Antonio : Deputy Treasurer

### List any ideas or plans you have for the upcoming year?

We will be focusing on raising funds and also developing an environmental hotline so that we can accept reports of environmental emergency and relay it to the proper agency. We will also be helping in the campaign of our national and local green candidates.

### Have you set a target for increasing women's participation in your party in 2021? If yes, what are they, and how will you meet them? (This could be about women members, women leaders, women candidates, and/or other targets)

We plan to boost more women members and also encourage them to take leadership positions.

### Has your party implemented or adapted the APGF Women and Gender Equity template policy? If yes, how have you implemented it? If no, do you have a different one?

We plan to do so in 2022.

### Is there anything else about gender equity in your party that you would like to report?

-

Submitted by: David D. D'Angelo

### CONGRATULATIONS

RESPONDING TO CLIMATE CHANGE: SCIENTIFIC REALITIES, POLITICAL AND ECONOMIC IMPERATIVE

Solomon Islands

# Green Party of the Solomon Islands

**Are your policies aligned to the Global Greens Charter? (see <https://globalgreens.org/about/charter/>)**

Yes

**Are you a registered political party in your country/province?**

Yes

**Describe any major developments within your party during 2021:**

We convened the party Convention and Special General Meeting to elect new office bearers for the party to lead the party in 2022.

**What are the political opportunities and challenges for your party next year?**

The political opportunities are that GPSI can contest the national and provincial elections and be part of the ruling government. The challenges are due mainly on the financial side whereby the party executive needs to strategize and organize more fundraising activities to support the party activities and be self-reliant.

**What is the political situation in your country?**

The political situation in the country is fragile due to the weak party system in the country.

**Finance:**

**What is the financial position of your party/organisation?**

There is need for the GPSI Executive to plan out more fundraising activities to strengthen the weak financial position of the party.

## Membership and Leadership:

How many official party members do you have?

407

How many female official party members do you have?

150

Does your party have a women's network or women's group?

Yes, but dormant.

If you have a women's network or group, how many women members are involved, and when was the group formed?

-

If you have provided training or internships in 2021 for your members, how many women participated in the training or internship? How many men participated?

Women: \_

Men: \_

How many women hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer, other Executive member positions)?

National	Provincial	Local
3: General Secretary, Women Network Representative, Youth Representative		

How many men hold official positions in your Party at national, provincial and local level (for example, Leader, Convenor, Treasurer)?

National	Provincial	Local
3: President, Vice President, Treasurer		

Do you have an internal sexual harassment policy and procedures? If you do not, do you plan on making one?

No - May be in the future

## Political representation:

How many elected representatives do you have at national, provincial, and local levels?

National	Provincial	Local
Nil	Nil	Nil
